TRANSLATION NOTES

On page 4 when the succubus says "if you're concerned about feeding me" there was actually a pun going on in the original that I couln't carry over. She referred to the rice porridge in the line but used the slang term "omanma" instead of the usual "okayu" (both meaning rice porridge).
"Omanma" is very close to another word, "omanman" which is an "endearing" term for a woman's vagina, so the ine had a double meaning.
One meaning was about feeding her rice and the other was about him being interested in her privates. Sadly this was impossible to keep in the translation (or at least I couldn't) so I'm mentioning it here for your amusement.
She also followed that line with a verb that can mean imply various types of throwing/shooting, including shooting semen on someone's face.

Yeah it was a pretty bad gag.

I guess that's why she got burned.
